

SIGNATURE 3 IN 1 TREATMENT

A light chemical peel plus mesotherapy plus laser genesis

face or neck or décolleté with 5000 pulses laser genesis	1500
face and neck with 10 000 pulses laser genesis	2350
face, neck and décolleté with 15000 pulses laser genesis	3300

THE PIXEL PEEL

This is fast becoming our number one anti ageing treatment. The results are remarkable!

This treatment works by enhancing the penetration of a chemical peel into the skin by combining it with a dermapen micro needling session. This combination causes an aggressive stimulation of new collagen, elastin and fibroblasts in the dermis for long term anti ageing benefits, while at the same time, shedding the build up of dead cells to reveal healthy smooth skin.

Benefits

dermapen treatment	refines skin texture smoothes lines and wrinkles improves skin elasticity diminishes acne scarring	
medium depth chemical peel	refines pore size and skin texture gives lustre to dull skin lifts pigmentation	
face or neck or décolleté		1900
face and neck or décolleté		3000
face, neck and décolleté		4000

BTL SLIMMING/CELLULITE/SKIN TONING

BTL EXILIS ELITE

Body contouring, skin tightening and toning

The Exilis Elites dual energy procedure uses safe thermal waves to target and destroy fat cells. In the same treatment, the Exilis safely stimulates the production of a new network of collagen by heating the upper layers of the skin (to a minimum of 40 degrees) which guarantees improvement of skin laxity and texture.

4 – 6 treatments one week apart
Pricing on assessment of area to be treated.

BTL X-WAVE

Acoustic wave therapy, scientifically proven for cellulite treatment

X-Wave is an advanced, scientifically proven cellulite treatment.

Excellent satisfaction rate reported – painless application - no side effects - no risks - short treatments.

8 - 10 treatments recommended
Pricing on assessment of area to be treated.

BTL INTIMA

The first non-invasive labia remodeling system

Treats - Unpleasing aesthetic appearance - Hygiene issues - Chronic irritation - Painful intercourse - Labia laxity or deflation.

4 treatments one week apart 6000

BTL LYMPHASTIM

Pressotherapy. The perfect stimulation of the lymphatic system

Reduces cellulite appearance - improves skin tone - removes toxins and interstitial fluid from tissues - supports the stimulation of the immune system - improves lymphatic malfunction.

per 30 mins 300
10 sessions 1900

PLEXR SOFT SURGERY

Plexr plasma pen soft surgery treatment is a revolutionary way to treat loose eyelid and lower eye skin without the downtime and cost of surgery. If you have mild-moderate loose skin, this is a fantastic alternative to consider. The Plexr pen is also a very precise and safe way to remove moles, skin tags, skin lesions, xanthelasma (cholesterol bumps) and small tattoos without the risk of leaving a pigment or scar

excess skin – upper and lower eye (blepharoplasty)

removes: skin tags, moles, cholesterol bumps, skin lesions and xanthelasma

pricing on consultation

THREADING

We use state of the art suspension threads to lift and reshape the face. This technique smoothes out jawline and deep nasal lines and lifts cheeks.
