- ACNE AND ACNE SCARRING
- FACE AND BODY SKIN TIGHTENING
- FAT REDUCTION AND CELLULITE
- NAIL FUNGUS AND WART ERADICATION
- LASER REMOVAL OF PAPULOSA NIGRI

.....

All the above conditions are addressed with either an individual treatment or with a combination of treatments depending on each persons specific needs. By combining skin treatments with laser therapies you will achieve far superior results than stand alone treatments. The cost of combined treatments will differ from individual treatments. Prior to most treatments, a free consultation is made with either a doctor, nursing sister or a therapist, where all concerns can be discussed and a treatment plan can be drawn up for the best results.

## **LASER VEIN REMOVAL** (medical class ND-Yag 1064nm laser)

FDA approved for the removal of spider veins and broken capillaries

|         |      |

| Dermaquest pumpkin peel                                | 950  |

## COMBINATION TREATMENTS

**For guaranteed long lasting, anti ageing results, we have created a combination of treatments in packages. Your therapist or doctor will advise the best package for you.**

## LAMELLE NOVA DERMAPEN MICRONEEDLING + MESOTHERAPY

**Treats ageing skin texture, wrinkles, large pores, acne scarring, stretchmarks, pigmentation**

This treatment gives extreme results with minimal down time. The electric dermapen uses the finest needles that vertically pierce the skin, resulting in increased effectiveness, less epidermal damage and increased product penetration. A topical anaesthetic is applied 20 mins prior to treatment.

|                            |      |
|----------------------------|------|
| face or neck or décolleté  | 1220 |
| face and neck or décolleté | 2150 |
| face, neck and décolleté   | 3000 |

### **add on lasergensis**

|               |      |
|---------------|------|
| 5000 pulses   | 850  |
| 10 000 pulses | 1400 |
| 15 000 pulses | 2200 |

## TIXEL – ADVANCED MEDICAL SKIN REJUVENATION AND TIGHTENING

**The TIXEL provides an effective but not aggressive treatment that can be compared to CO2 factional laser with less charring and crusting, less pain and much less downtime. The settings on the TIXEL are adjustable in depth of penetration and duration of the tip on the skin.**

- Safe on all skin types
- Treat wrinkles and fine lines
- Tightens skin
- Reverses photo damaged skin
- Tightens excess eyelid skin
- Smooths out smokers lines

|                                 |      |
|---------------------------------|------|
| full face or neck or décollette | 3500 |
| jowl lift                       | 1900 |
| full eyes + crows feet          | 1250 |
| cheeks                          | 1900 |
| smokers lines                   | 1250 |
| hands                           | 2500 |

## PRP VAMPIRE FACIAL

### **platelet rich plasma with dermapen microneedling**

|                             |      |
|-----------------------------|------|
| face                        | 2300 |
| face and neck or décollette | 3000 |
| face and neck and decolette | 3700 |

### **platelet rich plasma with tixel**

|                              |      |
|------------------------------|------|

| face and neck or décollette  | 5200 |
| face and neck and décollette | 6600 |

|                          |      |
|--------------------------|------|
| prp for hair restoration | 2300 |
|--------------------------|------|

## LOW LEVEL LASER THERAPY FDA & CE CLEARED

Celluma light therapy has 3 specific LED wavelengths which are scientifically proven to address the following concerns:

|                     |                                                            |
|---------------------|------------------------------------------------------------|
| blue light          | - acne & pimples                                           |
| red light           | - skin texture by increasing collagen & elastin production |
| near infrared light | - inflammation, wound healing & pain                       |

|                             |      |
|-----------------------------|------|
| per 30 min session          | 400  |
| package of 12               | 3000 |
| as an add on to a treatment | 200  |

## SIGNATURE 3 IN 1 TREATMENT

A light chemical peel plus mesotherapy plus laser genesis

|                                            |      |
|--------------------------------------------|------|
| face or neck or décolleté with 5000 pulses | 1850 |
| face and neck with 10 000 pulses           | 3180 |
| face, neck and décolleté with 15000 pulses | 4100 |

## THE PIXEL PEEL

This is fast becoming our number one anti ageing treatment. The results are remarkable!

This treatment works by enhancing the penetration of a chemical peel into the skin by combining it with a dermapen micro needling session. This combination causes an aggressive stimulation of new collagen, elastin and fibroblasts in the dermis for long term anti ageing benefits, while at the same time, shedding the build up of dead cells to reveal healthy smooth skin.

### Benefits

|                            |                                                                                                             |
|----------------------------|-------------------------------------------------------------------------------------------------------------|
| dermapen treatment         | refines skin texture<br>smoothes lines and wrinkles<br>improves skin elasticity<br>diminishes acne scarring |
| medium depth chemical peel | refines pore size and skin texture<br>gives lustre to dull skin<br>lifts pigmentation                       |

|                            |      |
|----------------------------|------|
| face or neck or décolleté  | 2300 |
| face and neck or décolleté | 3900 |
| face, neck and décolleté   | 5300 |

## BODY SCULPTING AND CELLULITE TREATMENTS

### BTL EXILIS ELITE

The Exilis Elite's dual energy procedure uses safe thermal waves to target and destroy fat cells. In the same treatment the Exilis safely stimulates the production of a new network of collagen by heating the upper layers of skin to a minimum of 40 degrees which guarantees improvement of skin laxity and texture.

### BTL X-WAVE

The X-wave uses acoustic shockwave therapy to reduce cellulite by improving blood flow, assisting lymphatic drainage and softening connective tissue.

### BTL LYMPHATIC PRESSURE SUIT

The perfect stimulation of the lymphatic system. Reduces cellulite appearance - improves skin tone - removes toxins and interstitial fluid from tissues - supports the stimulation of the immune system - improves lymphatic malfunction.

|             |      |
|-------------|------|
| per 30 mins | 400  |
| 10 sessions | 2300 |
